

DRAWER MAGNET WITH INDICATION OF MAGNET SATURATION

ADVANTAGES OF THE DRAWER MAGNET MSS-MC ALARM

- The first magnetic separator in Europe to indicate the magnet's need for cleaning!
- Clear information on when to clean the separator
- Three-level efficiency indication: 100 %, 50 % and 0 %
- Elimination of human error
- Increased production quality
- Elimination of unnecessary maintenance stoppages
- Neodymium magnets with induction up to 18,700 G
- Separation of magnetic particles from 1 micron

SOLLAU, as a **technological leader in the development of magnetic separators**, brings a solution how to indicate and signal the magnet saturation as **the first in Europe!**

The alarm light provides customers with **clear and understandable information about when the magnetic separator needs to be cleaned**, as well as **when it is not necessary to perform the cleaning.**

INDICATION OF THE MAGNET SATURATION

It is signaled by colored LED lights on the separator door or by a beacon.

- **Green light**
(100 % separation efficiency)
The magnetic separator is fully functional.
- **Orange light**
(50 % separation efficiency)
We recommend cleaning as soon as possible!
- **Red light**
(0 % separation efficiency)
The separator does not perform its function and must be cleaned immediately!

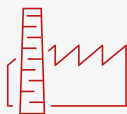

HOW WILL WE TAKE CARE OF YOU?

1. We will come

2. We will focus and design

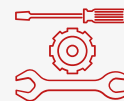

3. We make to-measure

4. We will install

5. We will put into operation and train

6. We will provide authorized service
