

WHY MAGNETIC GRATE SEPARATORS IN HOUSING MSS-MC?

SOLLAU magnetic grate separators in housing MSS-MC are designed to capture even very fine metal impurities from bulk materials.

Thanks to **powerful neodymium magnets with an induction of 18,700 G**, they can capture even **impurities as small as 1 µm!**

We manufacture **customized separators in 7 model series**, so we can find the most suitable solution for your application!

MSS MC ALARM is the first separator with overflow signaling in Europe!

EFFICIENCY

capturing particles from 1 µm

DELIVERY

standard types in stock

MAGNETIC INDUCTION

18 700 G

TAILORED SOLUTIONS

7 model series

EFFICIENCY

- Capture of Fe particles from 1 µm
- Magnetic induction: 18,700 G!

TECHNOLOGICAL INNOVATIONS

- The first separator with fill signal in Europe = you know exactly when to clean the separator
- Design with telescopic travels = easy and safe cleaning
- A model with an electric micro-vibrator for poorly permeable materials

PRODUCTION

- Custom production
- 7 model series = the most suitable solution for your application

CONDUCTING THE TESTS

- We will test your material within 3 days

LENDING

- Possibility of lending a magnetic separator

HOW WILL WE TAKE CARE OF YOU?

1. We will come

2. We will focus and design

3. We make to-measure

4. We will install

5. We will put into operation and train

6. We will provide authorized service
